

JORIC HANTZBERG

Computer science engineering student

CONTACT

- +33 7 85 47 91 54
- hantzberg.joric@gmail.com
- Strasbourg
- jorichz.fr - github.com/An0sis

SKILLS

Framework and libraries:

React, Tailwind

Technologies:

HTML/CSS

Tools:

Linux, Windows
Git

Programming languages:

Advanced: **C**, **C++**, **Python**
Intermediate: **C#**, **Java**, **SQL**
Novice: **JavaScript**

ACHIEVEMENTS

Computer night:

Development of a website in one night. Award for the most user-friendly website

LANGUAGES

French	Native
English	C1 - 975 TOEIC
German	A2 - Novice

EDUCATION

September 2021 - July 2026

- EPITA - France:** Computer Science Engineering School
GPA: 3.0 - TOEIC: 975

January 2023 - July 2023

- Chulalongkorn University - Thailand**
Exchange semester of 6 months in Thailand

PROJECTS

- OCR:** creation of a sudoku solver with character recognition in **C**. I personally created a neural network to classify pictures of digit
- Abacus:** creation of a calculator in **C** with handling of unary operators, parentheses and precedence rules
- Tinyprintf:** development of a small version of the variadic function "printf" in **C**
- Portfolio:** development of a website using **JavaScript** and **React** to show my experience
- 42sh:** Development of a posix shell in **C**
- Future projects:
 - Tiger compiler:** Creation of a compiler for the programming language tiger in **C++**

ASSOCIATIVE PARTICIPATION

- Prologin:** member of Prologin, an association organizing coding competition in France
- Student union:** treasurer of the student union of EPITA

Available to work from September 2024 to January 2025
